Metis

Designer Nicola Pavan
Produzione / Production year: 2023

Descrizione

Metis arricchisce la sezione Saba che interpreta il divano come elemento mutevole e organico. Il suo nome ha origini lontane: i Greci indicavano con Mètis l'intelligenza pratica, quella che consente di risolvere abilmente, e per vie non convenzionali, i problemi di tutti i giorni, adattandosi alle diverse circostanze, con elasticità ed ingegno.

L'intuizione pratica che sta alla base di Metis è l'utilizzo di un'elegante cerniera metallica a vista, quale elemento di snodo tra gli schienali, applicazione che rende possibile la massima flessibilità senza gesti faticosi. Lineare e soffice al tempo stesso, Metis è caratterizzato da preziose trapuntature che scolpiscono i volumi di seduta, schienali e braccioli.

Attraverso la moltiplicazione e rotazione degli elementi base, a uno e due posti, di cui è composto, il nuovo sistema di sedute consente molteplici configurazioni ed espressioni estetiche home e contract.

Completamente sfoderabile.

Il tessuto di rivestimento esterno viene accoppiato a una fibra di poliestere 400 gr/mq. Questa lavorazione implica una manutenzione della fodera con lavaggio a secco per tutti i tipi di tessuto
Si fornisce in dotazione un kit ferramenta per compensare eventuali dislivelli che possono generarsi su pavimentazioni non perfettamente planari.

Struttura

In multistrato imbottito con poliuretano espanso a quote differenziate. Il molleggio della seduta viene assicurato da cinghie elastiche con anima in polipropilene.

Gli schienali sono in multistrato con inserto in poliuretano espanso 40IP, rivestiti con tessuto in poliuretano accoppiato a vellutino. Il sostegno ergonomico dei pannelli schiena è garantito da cinghie elastiche. Gli snodi di collegamento tra gli schienali sono in metallo finitura black nichel o verniciata.

Piedini

In ABS nero h. 2,5 cm.

Imbottitura

Il cuscino dello schienale è in fibra di poliestere misto a piuma d'oca lavata e sterilizzata suddivisa a scomparti e rivestiti con tessuto di cotone 100%.

Metis propone due tipi di sedute: versione Soft Seat Comfort e versione Harder Seat Comfort.

Soft Seat Comfort

La seduta è realizzata in 40EM e 25IM con bombatura in memory foam, rivestita con resinato accoppiato a tela di cotone 100gr/mq.

Harder Seat Comfort

La seduta è realizzata in 40IP e 25IM con bombatura in memory foam, rivestita con resinato accoppiato a tela di cotone 100gr/mq.

Description

Metis enriches the Saba product category that interprets the sofa as a changing and organic element. Its name has distant origins: the Greeks indicated with the word Mètis a practical intelligence, one that allows for everyday problems to be solved skillfully, and in unconventional ways, adapting to different circumstances, with elasticity and ingenuity.

The practical intuition behind the Metis sofa is the use of an elegant and visible metal hinge as a joint element between the backrests. This application allows for maximum flexibility without strenuous gestures. Linear yet soft at the same time, Metis is characterized by precious quilting that sculpts the volumes of the seats, backrests and armrests.

Through the multiplication and rotation of the basic one or two seat elements, of which it is composed, the new seating system allows multiple configurations and aesthetic expressions for the home and contract environment.

Fully removable covers.

The external covering fabric is coupled with a 400 gr/sqm polyester fiber. This process implies a maintenance of the cover with dry cleaning for all fabric types. A hardware kit is supplied to compensate for any unevenness that may arise on floors that are not perfectly flat.

Structure

In plywood padded with variable-density polyurethane foam. The seat is sprung with elastic straps reinforced with polypropylene.

Backrests are in plywood with polyurethane foam core 40IP, covered with polyurethane fabric coupled to velveteen. The ergonomic support of the back panels is ensured by elastic straps. The connection joints between backrests are in metal with black nickel or painted finish.

Feet

2,5 cm high, in black ABS.

Padding

The back cushion is in polyester fiber mixed with washed and sterilized goose feather divided into sections and clothed with 100% cotton fabric.

Metis proposes two types of seats: Soft Seat Comfort version and Harder Seat Comfort version.

Soft Seat Comfort

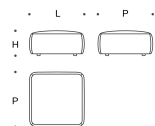

Seating is made in 40EM and 25IM with memory foam on the upper side, covered with resin coupled to cotton fabric 100gr/sqm.

Harder Seat Comfort

Seating is made in 40IP and 25IM with memory foam on the upper side, covered with resin coupled to cotton fabric 100gr/sqm.
